

Teklad S-2335 Mouse Breeder Sterilizable Diet

Product Description- 7004 is a fixed formula, autoclavable diet manufactured with high quality ingredients. It is designed with a high fat content for colonies which require a higher energy diet. 7004 is supplemented with additional vitamins to ensure nutritional adequacy after autoclaving. **Also available irradiated (7904).**

Ingredients (in descending order of inclusion)- Ground wheat, ground corn, dehulled soybean meal, porcine fat (preserved with BHA), dried whey, casein, brewers dried yeast, porcine meat and bone meal, soybean hulls, calcium carbonate, iodized salt, magnesium oxide, choline chloride, DL-methionine, kaolin, menadione sodium bisulfite complex (source of vitamin K activity), ferrous sulfate, vitamin E acetate, thiamin mononitrate, calcium pantothenate, niacin, manganous oxide, copper sulfate, zinc oxide, vitamin A acetate, pyridoxine hydrochloride, riboflavin, vitamin D₃ supplement, vitamin B₁₂ supplement, folic acid, biotin, calcium iodate, cobalt carbonate, lecithin.

Standard Product Form: **Pellet**

^a Ether extract is used to measure fat in pelleted diets, while an acid hydrolysis method is required to recover fat in extruded diets. Compared to ether extract, the fat value for acid hydrolysis will be approximately 1% point higher.

^b Carbohydrate (available) is calculated by subtracting neutral detergent fiber from total carbohydrates.

^c Neutral detergent fiber is an estimate of insoluble fiber, including cellulose, hemicellulose, and lignin. Crude fiber methodology underestimates total fiber.

^d Energy density is a calculated estimate of *metabolizable energy* based on the Atwater factors assigning 4 kcal/g to protein, 9 kcal/g to fat, and 4 kcal/g to available carbohydrate.

^e Indicates added amount but does not account for contribution from other ingredients.

^f 1 IU vitamin A = 0.3 µg retinol

^g 1 IU vitamin D = 25 ng cholecalciferol

For nutrients not listed, insufficient data is available to quantify.

Nutrient data represent the best information available, calculated from published values and direct analytical testing of raw materials and finished product. Nutrient values may vary due to the natural variations in the ingredients, analysis, and effects of processing.

Teklad Diets are designed and manufactured for research purposes only.
